Quick Take: Imagine98 is introducing **Made in Cadore**, an eyewear brand inspired by Italy's Dolomite mountains.
Specifics: The collection is made up of classic shapes, occasionally reinterpreted, and colors drawn from nature. Notable styles include Valanga, a round acetate frame, Scintilla, a hexagonal acetate frame with a knurled metal insert along the top rim, Gemma, a hexagonal metal frame and 80s inspired Alba.
Selling Point: Made in Cadore is unique and detailed, just like the mountains that inspire it.
